EB Técnica Mexicana is the stainless steel sinks leader in the Mexican market.

Our vision is clear: to be the first option in the kitchen accessories market, we will achieve this by focusing all our skills and knowledge on the continuous improvement of our profitability, operating with appropriate standards of a world-class company, in order to meet and exceed the needs of our customers. While our corporate values promote a good working environment for the development of our employees.

*Our word is our bond*

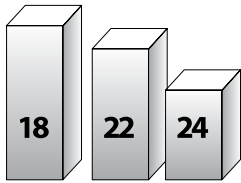

SINKS 

Always with you

# BASICS

**Gauge:** Is the thickness of the stainless steel. The lower the gauge number, the thicker the stainless steel. EB sinks are manufactured in 18, 22 and 24 gauges, depending on the model.

**Noise dampening patch:** A patch that is placed in the back of the sinks to lessen the noise associated with dropping utensils and running water.

## STAINLESS STEEL

An alloy of metals ( mainly chromium, nickel, iron and carbon ) that is resistant to corrosion and oxidation. EB sinks use steel with 18% chromium and 8% nickel, which gives the sink a high resistance and durability.

## DEPTH

The measurement from the bottom to the top of the bowl. EB sinks are available in depths of 14, 15, 18 and 20, depending on the model.

## ANCHORS

Anchors are pieces of metal that secure top mount sinks to the countertop.

# MOUNTING AND ASSEMBLY

## TOP MOUNT

The sink is placed over the countertop.

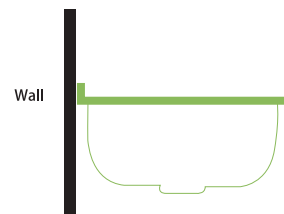

## UNDERMOUNT

The sink is placed under the countertop.

## WALL MOUNT

The sink does not require a countertop to be installed, it can be attached to a cabinet or fixed to the wall.

# FEATURES

**DEEPER SINKS:** Holds more dishses... even the pots!

**EASY INSTALLATION:** Doesn't required template or tape to seal

**RESISTANT:** Greater corrosion resistance

**CERTIFIED:** ISO 9001-2008

**BETTER LOOK:** Stain finish and lasting shine

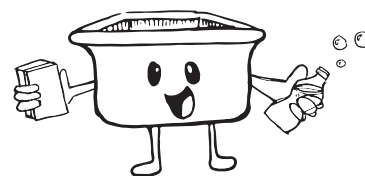

**Made in Mexico with quality.**

# CARE AND CLEANING

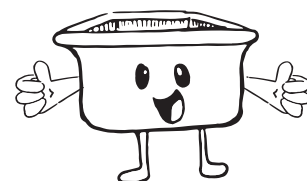

Wash your sink with dish soap, then rinse and dry after use, so it will keep clean, stain-free and have a longer life.

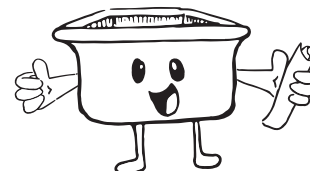

The gloss finish of your EB sink allows it maintain the same appearance throughout its life.

When water is high in minerals, white deposits may appear that can be removed using abrasive cleaners by rubbing the surface in the same direction of the grain to avoid scratching.

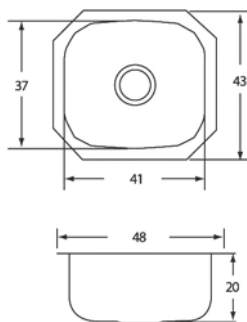

Minor burns and scratches can be removed by rubbing a 600 grade steel wool pad in the same direction as the grain grain .

Do not use knives or blades to clean the sink.
