Many of these products have the option to add WaterSentry<sup>®</sup> filters for cleaner, safer water. For an even more hygienic experience, go with a touchless unit.

### **Bottle Filling Stations**

We continue to expand our ezH2O bottle filling station offerings to include innovative technology, such as automatic filter reset. This award-winning product line upholds our commitment to delivering cleaner water in a safer, more hygienic way through sustainable design. Many operate hands free and all provide a rapid fill of drinking water to quench thirst and minimize plastic bottle waste in the environment.

We have models for both indoor and outdoor applications. Whether you're looking for vandal resistant, mechanical activated or architectural design, you'll find just what you need among our large assortment of bottle filling stations.

Most units offer our WaterSentry filters as options and our Flexi-Guard<sup>®</sup> Safety Bubblers, which feature an antimicrobial agent for an extra level of hygiene.
